# Johnson 3-Gun 2-Rifle Match

**Precision Tactical 2-Rifle match – April 23-24, 2022 - NRA Whittington Center**

You bring 2 rifles - an AR15 (.223 only) and a Precision Rifle (.223 to 300WM) and all the bags, bipods, backpacks, paraphernalia that you would bring to a precision match and the rifle portion of a 3-gun match. You may use any accessory you carry with either or both rifles. You will need to be able to sling either rifle. Bipods, Suppressors, Shooting Sticks, Tripods are all OK. All equipment used must be carried. Wind meters, binoculars, range finders, etc are also allowed. Both rifles may use any "manual" optical scope. We have a "speed limit" of 3000 fps for both rifles. Most targets are known distance, but can integrate unknown distances into the match. AR15 rifle will mostly be used for targets from up close and personal to about 400 yards. The precision rifle targets will be from about 300 yards to about 1000 yards. Speed limit for both rifles 3000fps.

Two types of stages: Field and Stationary. Each stage is worth 20 points.

-The Field Stages will have movement from a start position with AR loaded at low ready, PR slung, any additional equipment also carried. Engage AR targets (10 targets total) while moving to the PRS shooting position. Once at the PR position the AR will be grounded safely and then the shooter will engage 5 long range steel targets with the PR. Field Stages can also start with PR and transition to AR, but most of the course of fire movement will be with the AR.

-The Stationary Stages will be from defined shooting positions, maybe 10-20 feet apart. Can start with either rifle or even have a choice.
